

CONTROL WAND

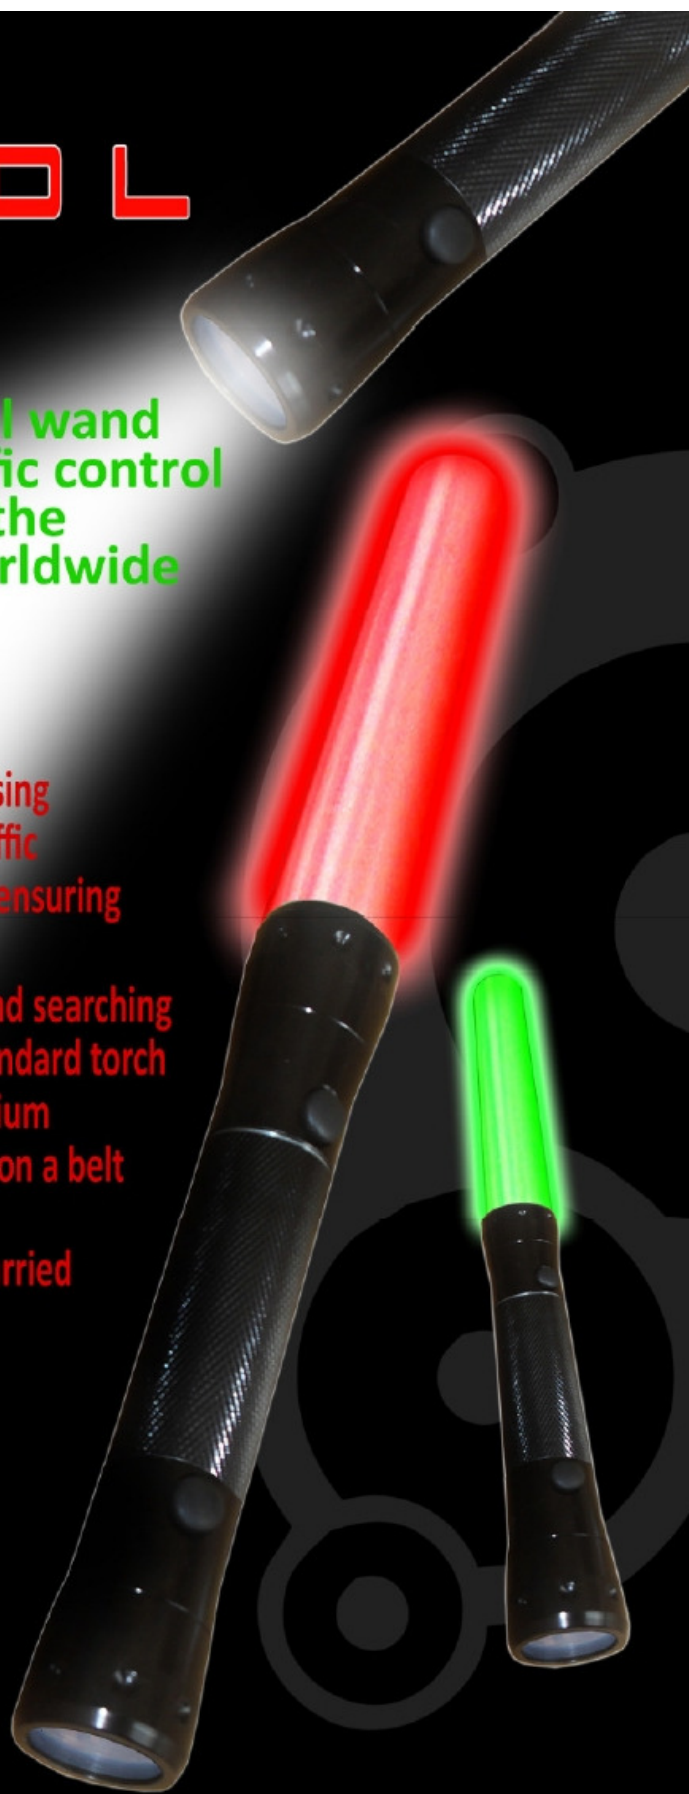

Multi-functional traffic control wand
A revolutionary device in traffic control
Works under the principle of the
Traffic light system known worldwide

Features:

- Red (steady or flashing) light to indicate stop
- Green light to indicate go to the motorist
- Switch quickly between red and green by pressing a button- great to deal with long queues of traffic
- Red and green light similar to the traffic lights ensuring no confusion of the officers signal
- Contains a normal torch for reading licenses and searching
- The coloured wand is removable to leave a standard torch
- Strong and robust- manufactured from aluminium
- Small & compact and stored within the pouch on a belt
- 1 watt LEDs to ensure the greatest visibility
- Potential to minimise amount of equipment carried
- The wand is fully adaptable to a clients need by simply changing the colour of the LEDs
- Weatherproof with sealed push buttons

170mm when
stored in pouch
